MAIN CONTROL SCHEDULE

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY

Region III
841 Chestnut Building
Philadelphia, Pennsylvania 19107

ORIGINAL
(RED)

JUN 28 1991

Honorable Peter H. Kostmayer
Member, U.S. House of Representatives
1500 South Main Street
Doylestown, Pennsylvania 18901

Dear Mr. Kostmayer:

Thank you for your letter of June 12, 1991, on behalf of your constituent, Ms. Carol Fanelli, Chairperson for the Bucks People United to Restore the Environment (B-PURE), regarding their petition for the Environmental Protection Agency (EPA) to conduct a preliminary assessment on the Wheelabrator Falls, Inc. property in Falls Township.

Numerous studies have been conducted at the USX-Fairless Hills site (adjacent to the Wheelabrator property) including a Preliminary Assessment (PA) in April 1989. The area which is identified in the petition as the Wheelabrator Falls, Inc. property was included in the PA for the USX-Fairless Hills facility. Based on the results in the PA and on additional studies conducted in the area, EPA plans to continue the investigation. Further investigation will help to determine the nature and extent of contamination in the area and the degree of cleanup required.

In response to another letter we received from Ms. Carol Fanelli dated May 28, 1991, we have provided her with this information and included a copy of the PA for the USX-Fairless Hills Site.

We appreciate your concern about these environmental issues. If you have any further questions about this matter, please contact this office again.

Sincerely,

Edwin B. Erickson
Edwin B. Erickson
Regional Administrator
